

WHAT

The Lotus Clinics at KidsTLC

offer specialized outpatient therapies to alleviate mental and behavioral challenges facing children and their families.

Each clinic offers an integrated, seamless service delivery model that includes individual, family and group therapies; outpatient substance abuse services; integrated behavioral healthcare in collaboration with Olathe Health Systems; and telemedicine with rural communities, delivered through trauma-focused and evidence-based programming. In addition to our overarching mental and behavioral health services, the specialty clinics include:

- Anxiety
- Dialectical Behavioral Therapy (DBT)

WHO

These specialized clinics at KidsTLC will address concerns individuals, from early childhood through young adulthood, and their families have regarding their mental and behavioral wellness.

THEY

Whether you're struggling with anxiety depression, self-acceptance, substance abuse, self-harming or suicidal thoughts, Post-Traumatic Stress Disorder, family dysfunction, anger, interpersonal difficulties or a myriad of other concerns, the Lotus Clinics can provide hope and healing which lead to a healthy, fulfilling life.

FOR?

Our highly skilled mental health practitioners treat each client with dignity, respect, and compassion. The Lotus Clinics are committed to learning each individual's issues and working toward optimum well-being, in a safe, supportive and confidential atmosphere in order to attain the personal growth they desire.

"We are passionate about improving mental health by focusing on mental wellness, rather than mental illness."
